7. Drug-drug and drug-allergy interaction checks
8. Record demographics
9. Maintain an up-to-date problem list of current and active diagnoses
10. Maintain active medication list
11. Maintain active medication allergy list
12. Record and chart changes in vital signs
13. Record smoking status for patients 13 years or older
14. Capability to exchange key clinical information among providers of care and patient-authorized entities electronically
15. Protect electronic health information

2

5 MENU SET MEASURES

REPORT ON 5 OF THE 10 POSSIBLE

(1 of the 5 must be public health related; choose #9 or #10)

1. Drug-formulary checks
2. Incorporate clinical lab test results as structured data
3. Generate lists of patients by specific conditions
4. Send reminders to patients per patient preference for preventive/follow up care
5. Provide patients with timely electronic access to their health information
6. Use certified EHR technology to identify patient specific education resources and provide to patient, if appropriate
7. Medication reconciliation
8. Summary of care record for each transition of care/referrals
9. Capability to submit electronic data to immunization registries/systems
10. Capability to provide electronic syndromic surveillance data to public health agencies

3

6 CLINICAL QUALITY MEASURES

3 CORE MEASURES MUST BE REPORTED

1. Hypertension: blood pressure measurement
2. Preventative care: tobacco use assessment and cessation
3. Adult weight screening and follow-up

OR

If a provider demonstrates that one or all of these core measures are not applicable to his or her specialty by reporting a 0 denominator, then that provider may report on "alternate core" measures:

Alternate Core Measures

1. Weight assessment and counseling for children and adolescents
2. Influenza immunization for patients ≥ 50 years old
3. Childhood immunization status

PLUS,

REPORT ON 3 ADDITIONAL MEASURES

chosen from the menu set of all clinical quality measures available with your particular EHR.
